to register

Increase your productivity, whilst reducing operating costs and overheads.

Lean Manufacturing identifies and eliminates non-value adding activities and creates additional capacity making your business more profitable.

Participants in this "Lean Manufacturing" course will learn the skills to apply lean problem solving and process efficiency concepts into their environment.

This two-day course will allow participants to learn and apply "lean" concepts resulting in improved lean processes creating Breakthrough transformations.

Who should attend?

Production, Operations, Engineering and HR Managers, Business Owners and those seriously interested in improving their manufacturing processes.

Topics Covered:

Lean Concepts—Eliminating Manufacturing Wastes, Identifying Value Adding activities, making activities flow

Lean Tools—Value Stream Mapping, 5S, Workflow, JIT, Quick Changeovers, Standard Work, Mistake Proofing, Workcell Layout, Kanban

Accelerating Change—Quick and Easy Kaizen, 30/30 Kaizen, Visual Performance Management, Visual Innovation Management

Special Offers:

1. Register 3 or more people and your fourth attendee is free.
2. Enroll more than 10 people in one of our popular Competitive Manufacturing programs within three months of attending this workshop and we will credit you the price of your workshop fees.

Price: \$800 (GST inc) pp **Course Time: 8.30am-5.00pm**

What is Lean?

Lean is a way of thinking about how a product or service flows through a series of processes in the most efficient way possible. Each activity or process must create value. It is a simple strategy that helps you create increased workflow through the elimination of waste and variation; and removing work imbalance. Lean is a way of thinking!

Do you need "Lean"?

- ◆ Do you experience long lead times and production backlogs?
- ◆ Do you have a high rework or defect rate?
- ◆ Do you need to change the culture of your business to remain competitive?
- ◆ Are you or your staff working under considerable stress to maintain productivity targets?

Benefits of our Lean Manufacturing Course

Do you want to be recognised as the best in your field? Our Lean Manufacturing program will help you get there. Our concepts are leading edge and have been designed by leading experts in Japan, USA and Europe.

We regularly take our clients to Japan and Europe to benchmark against the best. To find out more visit our Lean Study Tour Webpage at www.improvegroup.co.nz.

Successful 'LEAN' clients.

Frucor, NDA Engineering, Pernot-Ricard, Tidd Ross Todd, Bertolini Australasia, IW Fastex, PMP Print, Halley Labels.

What our clients say.

"The number of ideas that are coming from the factory floor to improve the workplace—it's like somebody has flicked a switch"— Henk Roling, Manufacturing Director, Frucor Beverages, Wiri, Auckland

"I have found The Improve Group coaching programs to be useful and effective tools in our drive towards lean excellence in manufacturing at our Panmure site" - Graeme Hughes, Manufacturing Manager, NCI Packaging, Panmure, Auckland

"I have to say that it was not a totally new concept to me. I just didn't know it had a name. It has been a great exercise looking at what we do and how we do it and understanding the whole process and being able to do it better. We tripled our output in 3 days!" - Paul Gibbs, Workshop Manager, NDA Engineering, Normanby, Taranaki.

Lean principles are now defining world-class performers in business.
